

**CULTURAL CENTER OF THE PHILIPPINES  
NOTES TO THE FINANCIAL STATEMENTS**

*(All amounts in Philippine Peso, unless otherwise stated)*

**1. GENERAL INFORMATION/ENTITY PROFILE**

The financial statements of the Cultural Center of the Philippines (Filipino: *Sentrong Pangkultura ng Pilipinas*, or CCP) were authorized for issue on March 28, 2023 as shown in the Statement of Management's Responsibility for Financial Statements signed by Dr. Jaime C. Laya, the Chairperson of the Board of Trustees.

The CCP is located at the CCP Complex, Roxas Boulevard, Pasay City, with a total land area of 608,569 square meters. It was created in 1966 through Executive Order No. 30 and formally inaugurated on September 8, 1969, as a trust for the benefit of the people for the purpose of preserving and promoting Philippine culture in all its varied aspects. As a Government Owned and/or Controlled Corporation, CCP through the years, has evolved into a premier Philippine institution for culture and the arts.

The CCP initially served as the center for performing arts showcasing the best in Filipino creativity and artistry notably in theater, music and dance. It expanded its reach in 1987 by becoming the coordinating center for artistic and cultural activities and continued to function as such for the next 10 years.

Upon the establishment of the National Commission for Culture and the Arts, CCP assumed a new role and became the center for the performing arts which seeks to catalyze cultural and artistic development by encouraging, nurturing, conserving, showcasing and disseminating Filipino creativity and artistic experience as well as continue to provide world-class programs, services and facilities. It has also become the prime mover in the establishment of regional arts and culture organizations.

The CCP nurtures and promotes artistic excellence, Filipino aesthetics and identity, and cultural values towards a humanistic global society.

**2. STATEMENT OF COMPLIANCE AND BASIS OF PREPARATION OF FINANCIAL STATEMENTS**

**2.1 Statement of Compliance with International Public Sector Accounting Standards (IPSASs)**

The financial statements have been prepared in compliance with the International Public Sector Accounting Standards (IPSASs), formerly Philippine Public Sector Accounting Standards (PPSASs), prescribed for adoption by the Commission on Audit (COA) through COA Resolution No. 2014-003 dated January 24, 2014. The PPSASs were renamed to IPSASs per COA Resolution No. 2020-01 dated January 9, 2020.

The accounting policies have been consistently applied throughout the year presented.

## **2.2 Preparation of Financial Statements**

The CCP's financial statements have been prepared on the basis of historical cost, unless stated otherwise. The Statement of Cash Flows is prepared using the direct method.

The financial statements are presented in Philippine Peso, the CCP's functional and presentation currency and amounts are rounded off to the nearest peso, unless otherwise stated.

The preparation of financial statements in compliance with the adopted IPSASs requires the use of certain accounting estimates. It also requires the entity to exercise judgment in applying the entity's accounting policies. The areas where significant judgments and estimates have been made in preparing the financial statements and their effects are disclosed in Note 3.17.

## **3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### **3.1 Basis of Accounting**

The CCP's financial statements are prepared on an accrual basis in accordance with the IPSASs.

### **3.2 Financial instruments**

#### **a. Financial assets**

##### **i. Initial recognition and measurement**

Financial assets within the scope of IPSAS 29 Financial Instruments: Recognition and Measurement are classified as financial assets at fair value through surplus or deficit, held to maturity investments, loans and receivables or available-for-sale financial assets, as appropriate. The CCP determines the classification of its financial assets at initial recognition.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognized on the trade date, i.e., the date that the CCP commits to purchase or sell the asset.

The CCP's financial assets include: cash and cash equivalents, quoted and unquoted financial instruments, derivative financial instruments, trade and other receivables, loans and other receivables.

##### **ii. Subsequent measurement**

The subsequent measurement of financial assets depends on their classification.

### 1. Financial assets at fair value through surplus or deficit

Financial assets at fair value through surplus or deficit include financial assets held for trading and financial assets designated upon initial recognition at fair value through surplus or deficit. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term.

Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets at fair value through surplus or deficit are carried in the Statement of Financial Position at fair value with changes in fair value recognized in surplus or deficit.

### 2. Held-to-maturity

Non-derivative financial assets with fixed or determinable payments and fixed maturities are classified as held-to-maturity when the CCP has positive intention and ability to hold it to maturity.

After initial measurement, held-to-maturity investments are measured at amortized cost using the effective interest method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The losses arising from impairment are recognized in surplus or deficit.

### 3. Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest method, less impairment.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. Losses arising from impairment are recognized in the surplus or deficit.

### **iii. Derecognition**

The CCP derecognizes a financial asset or where applicable, a part of a financial asset or part of CCP of similar financial assets when:

1. the contractual rights to the cash flows from the financial asset expired or waived; and
2. the CCP has transferred its contractual rights to receive the cash flows of the financial assets, or retains the contractual rights to receive the cash flows of the financial assets but assumes a contractual obligation

to pay the cash flows to one or more recipients in an arrangement that meets the conditions set forth in IPSAS 29 *Financial Instruments: Recognition and Measurement*; and either the entity has:

- transferred substantially all the risks and rewards of ownership of the financial asset; or
- neither transferred nor retained substantially all the risks and rewards of ownership of the financial asset, but has transferred the control of the asset.

#### **iv. Impairment of financial assets**

The CCP assesses at each reporting date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred "loss event") and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

Evidence of impairment may include the following indicators:

1. The debtors or a group of debtors are experiencing significant financial difficulty;
2. Default or delinquency in interest or principal payments;
3. The probability that debtors will enter bankruptcy or other financial reorganization; and
4. Observable data indicates a measurable decrease in estimated future cash flows (e.g., changes in arrears or economic conditions that correlate with defaults).

#### **v. Financial assets carried at amortized cost**

For financial assets carried at amortized cost, the CCP first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the CCP determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognized are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The present value of the

estimated future cash flows is discounted at the financial asset's original effective interest rate. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate.

The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognized in surplus or deficit. Receivables together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realized or transferred to CCP. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance account. The request for write-off of accounts is based on the guidelines prescribed in COA Circular No. 2016-005 dated December 19, 2016. If a future write-off is later recovered, the recovery is credited in surplus and deficit.

**b. Financial liabilities**

**i. Initial recognition and measurement**

Financial liabilities within the scope of IPSAS 29 are classified as financial liabilities at fair value through surplus or deficit, or loans and borrowings, as appropriate. The entity determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, plus directly attributable transaction costs.

The CCP's financial liabilities include trade and other payables, bank overdrafts, loans and borrowings, and financial guarantee contracts.

**ii. Subsequent measurement**

The measurement of financial liabilities depends on their classification.

**1. Financial liabilities at fair value through surplus or deficit.**

Financial liabilities at fair value through surplus or deficit include financial liabilities held for trading and financial liabilities designated upon initial recognition at fair value through surplus or deficit.

Financial liabilities are classified as held for trading if they are acquired for the purpose of selling in the near term.

This category includes derivative financial instruments that are not designated as hedging instruments in hedge relationships as defined by IPSAS 29.

Gains or losses on liabilities held for trading are recognized in surplus or deficit.

## 2. Loans and borrowings

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortized cost using the effective interest method. Gains and losses are recognized in surplus or deficit when the liabilities are derecognized as well through the effective interest method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate.

### iii. Derecognition

A financial liability is derecognized when the obligation under the liability expires or is discharged or cancelled.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in surplus or deficit.

### c. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

### d. Fair value of financial instruments

The fair value of financial instruments that are traded in active markets at each reporting date is determined by reference to quoted market prices or dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction costs.

### e. Derivative financial instruments

#### i. Initial recognition and subsequent measurement

The CCP uses derivative financial instruments such as forward currency contracts and interest rate swaps to hedge its foreign currency risks and interest rate risks, respectively. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to surplus or deficit. The CCP does not apply hedge accounting.

### **3.3 Cash and Cash Equivalents**

Cash and cash equivalents comprise cash on hand and cash in bank, deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value.

### **3.4 Inventories**

Inventory is measured at cost upon initial recognition. To the extent that inventory are received through non-exchange transactions (for no cost or for a nominal cost), the cost of the inventory is its fair value at the date of acquisition.

Inventories are recognized as an expense when deployed for utilization or consumption in the ordinary course of operations of the CCP.

### **3.5 Investment Property**

Investment property is measured initially at cost, including transaction costs. The carrying amount includes the replacement cost of components of an existing investment property at the time that cost is incurred if the recognition criteria are met and excludes the costs of day-to-day maintenance of an investment property.

Investment property acquired through a non-exchange transaction is measured at its fair value at the date of acquisition. Subsequent to initial recognition, investment property is measured using the cost model and is depreciated over its estimated useful life.

Investment property is derecognized either when it has been disposed of or when it is permanently withdrawn from use and no future economic benefit or service potential is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the surplus or deficit in the period of derecognition.

Transfers are made to or from investment property only when there is a change in use.

The CCP uses the cost model for the measurement of investment property after initial recognition.

### **3.6 Property, Plant and Equipment**

#### **a. Recognition**

An item is recognized as Property, Plant, and Equipment (PPE) if it meets the characteristics and recognition criteria as a PPE.

The characteristics of PPE are as follows:

- i. tangible items;
- ii. are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes; and
- iii. are expected to be used during more than one reporting period.

An item of PPE is recognized as an asset if:

- i. it is probable that future economic benefits or service potential associated with the item will flow to the entity;
- ii. the cost or fair value of the item can be measured reliably; and
- iii. the cost is at least P50,000 per COA Circular No. 2022-004 dated May 31, 2022, on the increase in the capitalization threshold from P15,000 to P50,000.

**b. Measurement at recognition**

An item recognized as PPE is measured at cost.

A PPE acquired through non-exchange transaction is measured at its fair value as at the date of acquisition.

The cost of the PPE is the cash price equivalent or, for PPE acquired through non-exchange transaction, its cost is its fair value as at recognition date.

Cost includes the following:

- Its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates;
- Expenditure that is directly attributable to the acquisition of the items; and
- Initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired, or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

**c. Measurement after recognition**

After recognition, all PPE, with the exception of land, are stated at cost less accumulated depreciation and impairment losses.

When significant parts of PPE are required to be replaced at intervals, the CCP recognizes such parts as individual assets with specific useful lives and depreciates them accordingly.

Likewise, when a major repair/replacement is done, its cost is recognized in the carrying amount of the PPE as a replacement if the recognition criteria are satisfied.

All other repair and maintenance costs are recognized as expenses in surplus or deficit as incurred.

#### **d. Depreciation**

Each part of an item of PPE with a cost that is significant in relation to the total cost of the item is depreciated separately.

The depreciation charge for each period is recognized as an expense unless it is included in the cost of another asset.

##### **i. Initial recognition of depreciation**

Depreciation of an asset begins when it is available for use such as when it is in the location and condition necessary for it to be capable of operating in the manner intended by management.

For simplicity and to avoid proportionate computation, the depreciation is for one month if the PPE is available for use on or before the 15th of the month. However, if the PPE is available for use after the 15th of the month, depreciation is for the succeeding month.

##### **ii. Depreciation method**

The straight-line method of depreciation is adopted unless another method is more appropriate for the entity's operation.

##### **iii. Estimated useful life**

The CCP uses the life span of PPE prescribed by COA in determining the specific estimated useful life for each asset based on its experience, as follows:

Building and structures	- 30 years
Medical equipment	- 10 years
Furniture and fixtures	- 10 years
Machineries	- 10 years
Motor vehicles	- 7 years
Office equipment	- 5 years
Library books	- 5 years

##### **iv. Residual value**

The CCP uses a residual value equivalent to at least five percent (5%) of the cost of the PPE.

**e. Impairment**

An asset's carrying amount is written down to its recoverable amount, or recoverable service amount, if the asset's carrying amount is greater than its estimated recoverable amount or recoverable service amount.

**f. Derecognition**

The CCP derecognizes items of PPE and/or any significant part of an asset upon disposal or when no future economic benefits or service potential is expected from its continuing use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the surplus or deficit when the asset is derecognized.

**3.7 Leases**

**CCP as a lessor (Operating lease)**

Leases in which the CCP does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized over the lease term. Rent received from an operating lease is recognized as income on a straight-line basis over the lease term. Contingent rents are recognized as revenue in the period in which they are earned.

The depreciation policies for PPE are applied to similar assets leased by the entity.

**3.8 Changes in Accounting Policies and Estimates**

The CCP recognizes the effects of changes in accounting policy retrospectively. The effects of changes in accounting policy are applied prospectively if retrospective application is impractical.

The CCP recognizes the effects of changes in accounting estimates prospectively through surplus or deficit.

The CCP corrects material prior period errors retrospectively in the first set of financial statements authorized for issue after their discovery by:

- a. Restating the comparative amounts for prior period(s) presented in which the error occurred; or
- b. If the error occurred before the earliest prior period presented, restating the opening balances of assets, liabilities and net assets/equity for the earliest prior period presented.

**3.9 Foreign Currency Transactions**

Transactions in foreign currencies are initially recognized by applying the spot exchange rate between the functional currency and the foreign currency at the transaction date.

At each reporting date:

- a. Foreign currency monetary items are translated using the closing rate;
- b. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction; and
- c. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

Exchange differences arising (a) on the settlement of monetary items, or (b) on translating monetary items at rates different from those at which they are translated on initial recognition during the period or in previous financial statements, are recognized in surplus or deficit in the period in which they arise, except as those arising on a monetary item that forms part of a reporting entity's net investment in a foreign operation.

### **3.10 Revenue from Non-exchange Transactions**

#### **a. Recognition and measurement of assets from non-exchange transactions**

An inflow of resources from a non-exchange transaction, other than services in-kind, that meets the definition of an asset are recognized as an asset if the following criteria are met:

- It is probable that the future economic benefits or service potential associated with the asset will flow to the entity; and
- The fair value of the asset can be measured reliably.

An asset acquired through a non-exchange transaction is initially measured at its fair value as at the date of acquisition.

#### **b. Recognition of revenue from non-exchange transactions**

An inflow of resources from a non-exchange transaction recognized as an asset is recognized as revenue, except to the extent that a liability is also recognized in respect of the same inflow.

As CCP satisfies a present obligation recognized as a liability in respect of an inflow of resources from a non-exchange transaction recognized as an asset, it reduces the carrying amount of the liability recognized and recognizes an amount of revenue equal to that reduction.

#### **c. Measurement of revenue from non-exchange transactions**

Revenue from non-exchange transactions is measured at the amount of the increase in net assets recognized by the entity, unless a corresponding liability is recognized.

**d. Measurement of liabilities on initial recognition from non-exchange transactions**

The amount recognized as a liability in a non-exchange transaction is the best estimate of the amount required to settle the present obligation at the reporting date.

**e. Taxes**

Taxes and the related fines and penalties are recognized when collected or when these are measurable and legally collectible. The related refunds, including those that are measurable and legally collectible, are deducted from the recognized tax revenue.

**f. Fees and fines not related to taxes**

The CCP recognizes revenue from fees and fines, except those related to taxes, when earned and the asset recognition criteria are met. Deferred income is recognized instead of revenue if there is a related condition attached that would give rise to a liability to repay the amount.

Other non-exchange revenues are recognized when it is probable that the future economic benefits or service potential associated with the asset will flow to the entity and the fair value of the asset can be measured reliably.

**g. Gifts and donations**

The CCP recognizes assets and revenue from gifts and donations when it is probable that the future economic benefits or service potential will flow to the entity and the fair value of the assets can be measured reliably.

Goods in-kind are recognized as assets when the goods are received, or there is a binding arrangement to receive the goods. If goods in-kind are received without conditions attached, revenue is recognized immediately. If conditions are attached, a liability is recognized, which is reduced and revenue recognized as the conditions are satisfied.

On initial recognition, gifts and donations including goods in-kind are measured at their fair value as at the date of acquisition, which are ascertained by reference to an active market, or by appraisal. An appraisal of the value of an asset is normally undertaken by a member of the valuation profession who holds a recognized and relevant professional qualification. For many assets, the fair values are ascertained by reference to quoted prices in an active and liquid market.

**h. Transfers**

The CCP recognizes an asset in respect of transfers when the transferred resources meet the definition of an asset and satisfy the criteria for recognition as an asset, except those arising from services in-kind.

**i. Services in-kind**

Services in-kind are not recognized as asset and revenue considering the complexity of the determination of and recognition of asset and revenue and the eventual recognition of expenses.

**j. Transfers from other government entities**

Revenue from non-exchange transactions with other government entities and the related assets are measured at fair value and recognized on obtaining control of the asset (cash, goods, services and property) if the transfer is free from conditions and it is probable that the economic benefits or service potential related to the asset will flow to the CCP and can be measured reliably.

**3.11 Revenue from Exchange Transactions**

**a. Measurement of revenue**

Revenue is measured at the fair value of the consideration received or receivable.

**b. Rendering of services**

The CCP recognizes revenue from rendering of services by reference to the stage of completion when the outcome of the transaction can be estimated reliably. The stage of completion is measured by reference to labor hours incurred to date as a percentage of total estimated labor hours.

Where the contract outcome cannot be measured reliably, revenue is recognized only to the extent that the expenses incurred are recoverable.

**c. Sale of goods**

Revenue from the sale of goods is recognized when the significant risks and rewards of ownership have been transferred to the buyer, usually on delivery of the goods and when the amount of revenue can be measured reliably and it is probable that the economic benefits or service potential associated with the transaction will flow to the CCP.

**d. Interest income**

Interest income is accrued using the effective yield method. The effective yield discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount. The method applies this yield to the principal outstanding to determine interest income each period.

**e. Dividends**

Dividends or similar distributions are recognized when the CCP's right to receive payments is established.

**f. Rental income**

Rental income arising from operating leases on investment property is accounted for on a straight-line basis over the lease terms and included in revenue.

**g. Royalties**

Royalties are recognized as they are earned in accordance with the substance of the relevant agreement.

**3.12 Budget Information**

The annual budget is prepared on a cash basis and is published on the government website.

A separate Statement of Comparison of Budget and Actual Amounts (SCBAA) is prepared since the budget and the financial statements are not prepared on a comparable basis. The SCBAA is presented showing the original and final budget and the actual amounts on a comparable basis to the budget. Explanatory comments are provided in the notes to the annual financial statements.

**3.13 Impairment of Non-Financial Assets**

**a. Impairment of cash-generating assets**

At each reporting date, the CCP assesses whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the CCP estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

Where the carrying amount of an asset or the cash-generating unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

For assets, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the CCP estimates the asset's or cash-generating unit's recoverable amount.

A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last

impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in surplus or deficit.

#### **b. Impairment of non-cash-generating assets**

The CCP assesses at each reporting date whether there is an indication that a non-cash-generating asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the CCP estimates the asset's recoverable service amount. An asset's recoverable service amount is the higher of the non-cash-generating asset's fair value less costs to sell and its value in use.

Where the carrying amount of an asset exceeds its recoverable service amount, the asset is considered impaired and is written down to its recoverable service amount. The CCP classifies assets as cash-generating assets when those assets are held with the primary objective of generating a commercial return. Therefore, non-cash-generating assets would be those assets from which the CCP does not intend (as its primary objective) to realize a commercial return.

#### **3.14 Related Parties**

The CCP regards a related party as a person or an entity with the ability to exert control individually or jointly, or to exercise significant influence over the CCP, or vice versa. Members of key management are regarded as related parties.

#### **3.15 Service Concession Arrangements**

The CCP analyzes all aspects of service concession arrangements that it enters into in determining the appropriate accounting treatment and disclosure requirements. In particular, where a private party contributes an asset to the arrangement, the CCP recognizes that asset when, and only when, it controls or regulates the services the operator must provide together with the asset, to whom it must provide them, and at what price.

In the case of assets other than 'whole-of-life' assets, it controls, through ownership, beneficial entitlement or otherwise - any significant residual interest in the asset at the end of the arrangement. Any assets so recognized are measured at their fair value. To the extent that an asset has been recognized, the CCP also recognizes a corresponding liability, adjusted by a cash consideration paid or received.

#### **3.16 Employee Benefits**

The employees of CCP are members of the Government Service Insurance System (GSIS), which provides life and retirement insurance coverage.

The CCP recognizes the undiscounted amount of short-term employee benefits, like salaries, wages, bonuses, allowance, etc., as expense unless capitalized, and as a liability after deducting the amount paid.

### **3.17 Measurement Uncertainty**

The preparation of financial statements in conformity with IPSASs requires management to make estimates and assumptions that affect the reporting amounts of assets and liabilities, and disclosure of contingent assets and liabilities, at the date of the financial statements and the reported amounts of the revenue and expenses during the period. Items requiring the use of significant estimates include the useful life of a capital asset, estimated employee benefits, rates for amortization, impairment of assets, liability for contaminated sites, etc.

Estimates are based on the best information available at the time of preparation of the financial statements and are reviewed annually to reflect new information as it becomes available. Measurement uncertainty exists in these financial statements. Actual results could differ from these estimates.

## **4. PRIOR PERIOD ADJUSTMENTS**

### **4.1 Due to Change in Accounting Policy**

In accordance with COA Circular No. 2022-004 dated May 31, 2022, the increase of capitalization threshold for PPE from P15,000.00 to P 50,000.00 was applied. Tangible items below the capitalization threshold of P50,000, for a total of P39,876,203.27, were reclassified and booked as adjustment in the accumulated surplus/(deficit). All PPE accounts and their corresponding accumulated depreciation were affected by the change except for Land and Other Land Improvements, Office Buildings and Transportation Equipment accounts which do not have items below the capitalization threshold. Moreover, other PPE items such as costumes, kitchen equipment and books will be subject for reclassification to semi-expendable expense accounts in the following year.

### **4.2 Due to Prior Period Errors**

Prior period errors include over-setup of receivables, restoration of cash due to stale checks, recognition of miscellaneous income from unutilized fund of certain projects, writing off of other payables (dormant), over/under setup of payables due to variance in actual payment of expenses and other correction of errors in the financial statements that were reported for a prior period in *Note 19*.

## **5. RISK MANAGEMENT OBJECTIVES AND POLICIES**

The CCP is exposed to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risks
- Operational risk

This note presents information about the CCP's exposure to each of the above risks, its objectives, policies and processes for measuring and managing risk, and its management of capital.

## 5.1 Risk Management Framework

The CCP Board has overall responsibility for the establishment and oversight of CCP's risk management framework. The Board is expected to establish and institute adequate control mechanisms for good governance in CCP.

Generally, the maximum risk exposure of financial assets and financial liabilities is the carrying amount of the financial assets and financial liabilities as shown in the Statements of Financial Position, as summarized below.

	Note	2022	2021 (As Restated)
<b>Financial assets</b>			
Cash and cash equivalents	6	205,469,809	287,486,407
Financial assets	7	747,141,728	509,314,760
Receivables	8	54,394,961	93,564,071
		<b>1,007,006,498</b>	<b>890,365,238</b>
<b>Financial liabilities</b>			
Financial liabilities	13	219,381,192	135,973,074
Inter-agency payables	14	11,248,334	47,840,104
Trust liabilities	15	162,232,668	156,202,981
		<b>392,862,194</b>	<b>340,016,159</b>

## 5.2 Credit Risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the CCP. The CCP has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral or security deposit where appropriate as a means of mitigating the risk of financial loss from defaults. The CCP defines counterparties as having similar characteristics if they are related entities.

Also, the CCP manages its credit risk by depositing its cash with the Land Bank of the Philippines (LBP), an authorized government depository bank.

The carrying amount of financial assets recognized in the financial statements represents the CCP's maximum exposure to credit risk.

### a. Credit risk exposure

The table in the page shows the gross maximum exposure to credit risk of the CCP as of the years ended December 31, 2022 and 2021, without considering the effects of credit risk mitigation techniques.

	Note	2022	2021 (As Restated)
<b>Financial assets</b>			
Cash and cash equivalents	6	205,469,809	287,486,407
Financial assets	7	747,141,728	509,314,760
Receivables*	8	80,598,273	177,131,861
		<b>1,033,209,810</b>	<b>973,933,028</b>

\*Receivables at gross of allowance for impairment amounting to P26,203,312 and P83,567,790 for the years ended December 31, 2022 and 2021, respectively.

**b. Management of credit risk**

The management of credit risk is covered by the Risk Management Committee. The Accounting Division and the Budget and Treasury Division of the Agency are in charge of controlling, monitoring and collecting payments of all the receivables due from employees, tenants and clientele. Receivables from employees consist of overpayment of salaries due to leave without pay, excess usage of airtime charges over the set limit, personal calls, etc. and are collected through payroll deductions. Status of outstanding receivables is summarized monthly in a schedule and is submitted together with the financial reports to the COA. Should there be no payments received, the Accounting Division follows up either through phone calls or write demand letters for collection until settled. Other concerns or issues, if any, are referred to the Legal Department or Audit Committee for appropriate action.

**c. Settlement risk**

The CCP's activities may give rise to risk at the time of settlement of transactions and trades. Settlement risk is the risk of loss due to the failure of a company to honor its obligations to deliver cash, securities or another asset as contractually agreed.

For certain types of transactions, the CCP mitigates this risk by conducting settlements through a settlement/clearing agent to ensure that a trade is settled only when both parties have fulfilled their contractual settlement obligation. Settlement limits form part of the credit approval/limit monitoring process described earlier. Acceptance of settlement risk on free settlement requires transaction specific or counterparty specific approval from the Risk Committee.

**d. Risk concentration of the maximum exposure to credit risk**

Concentrations arise when a number of counterparties are engaged in similar business activities or activities in the same geographic region or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions, concentrations indicate the relative sensitivity of the CCP's performance to developments affecting a particular industry or geographical location. Such credit risk concentrations, if not properly managed, may cause significant losses that could threaten the CCP's financial strength and undermine public confidence.

**e. Aging analysis**

An aging analysis of the CCP's receivables as of the years ended December 31, 2022 and 2021 is as follows:

	<b>2022</b>	<b>2021 (As Restated)</b>
Outstanding receivables: *		
Current accounts	21,154,936	8,573,792
Past due accounts:		
1 – 30 days past due	4,101,579	4,475,476
31 – 60 days past due	5,436,203	2,473,921
over 60 days past due	49,905,555	161,608,672
	<b>80,598,273</b>	<b>177,131,861</b>

\* Receivables net of allowance for impairment amounting to P26,203,312 and P83,567,790 for the years ended December 31, 2022 and 2021, respectively.

**f. Impairment assessment**

The CCP recognizes impairment losses based on the results of the specific/individual and collective assessment of its credit exposures. Impairment has taken place when there is a presence of known difficulties in the servicing of cash flows by counterparties, infringement of the original terms of the contract has happened, or when there is an inability to pay principal or interest overdue beyond a certain threshold. These and the other factors constitute observable events and/or data that meet the definition of an objective evidence of impairment.

The two methodologies applied by the CCP in assessing and measuring impairment include: (1) specific/individual assessment; and (2) collective assessment. Under specific/individual assessment, the CCP assesses each individual significant credit exposure for any objective evidence of impairment, and where such evidence exists, accordingly calculates the required impairment.

Among the items and factors considered by the CCP when assessing and measuring specific impairment allowances are: (a) the timing of the expected cash flows; (b) the projected receipts or expected cash flows; (c) the going concern of the counterparty's business; (d) the ability of the counterparty to repay its obligations during financial crises; (e) the availability of other sources of financial support; and (f) the existing realizable value of collateral. The impairment allowances, if any, are evaluated as the need arises, in view of favorable or unfavorable developments.

With regard to the collective assessment of impairment, allowances are assessed collectively for losses on receivables that are not individually significant and for individually significant receivables when there is no apparent or objective evidence of individual impairment.

A particular portfolio is reviewed on a periodic basis, in order to determine its corresponding appropriate allowances. The collective assessment evaluates and estimates the impairment of the portfolio in its entirety even though there is no objective evidence of impairment on an individual assessment.

Impairment losses are estimated by taking into consideration the following deterministic information: (a) historical losses/write offs; (b) losses which are likely to occur but has not yet occurred; and (c) the expected receipts and recoveries once impaired.

### **5.3 Liquidity Risk**

Liquidity risk is the risk that the CCP might encounter difficulty in meeting obligations from its financial liabilities.

#### **a. Management of liquidity risk**

The CCP's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the CCP's reputation.

The CCP maintains a portfolio of short-term liquid assets, largely made up of short-term liquid investment securities, loans and advances to CCP and other facilities, to ensure that sufficient liquidity is maintained within the CCP as a whole.

#### **b. Exposure to liquidity risk**

The liquidity risk is the adverse situation when the CCP encounters difficulty in meeting unconditionally the settlement of its obligations at maturity. Prudent liquidity management requires that liquidity risks are identified, measured, monitored and controlled in a comprehensive and timely manner. Liquidity management is a major component of the corporate-wide risk management system. Liquidity planning takes into consideration various possible changes in economic, market, political, regulatory and other external factors that may affect the liquidity position of CCP.

The liquidity management policy of the CCP is conservative in maintaining optimal liquid cash funds to ensure capability to adequately finance its mandated activities and other operational requirements at all times. The CCP's funding requirements are generally met through any or a combination of financial modes allowed by law that would give the most advantageous results. Senior Management is actively involved in the Executive Committee headed by the Vice President for Administration with the Managers of all departments. The total liabilities of CCP are due and demandable within 12 months as at December 31, 2022.

### **5.4 Market Risks**

Market risk is the risk that changes in the market prices, such as interest rate, equity prices, foreign exchange rates and credit spreads (not relating to changes in the obligor's issuer's credit standing) will affect the CCP's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return on risk.

## Management of interest rate risk

The management of interest rate risk against interest gap limits is supplemented by monitoring the sensitivity of the CCP's financial assets and liabilities to various standard and non-standard interest rate scenarios.

### **5.5 Operational Risks**

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the CCP's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behavior. Operational risks arise from all of the CCP's operations and are faced by all business entities.

The CCP's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the CCP's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The primary responsibility for the development and implementation of control to address operational risk is assigned to Senior Management within each business unit. This responsibility is supported by the development of overall standards for the management of operational risk in the following areas:

- Requirement for appropriate segregation of duties, including the independent authorization of transaction
- Requirement for the reconciliation and monitoring of transactions
- Compliance with regulatory and other legal requirements
- Documentation of controls and procedures
- Requirements for the periodic assessment of operational risk faced, and the adequacy of control and procedures to address the risk identified
- Requirements for the reporting of operational losses and proposed remedial action
- Development of contingency plans
- Training and professional development
- Ethical and business standards
- Risk mitigation, including insurance where this is effective

Compliance with corporate standards/processes is supported by a program of periodic reviews undertaken by Internal Audit or the Quality Management System Team Auditors. The results of Internal Audit reviews are discussed with Management of the CCP, with summaries to the Audit Committee and Senior Management of the CCP.

## 6. CASH AND CASH EQUIVALENTS

This account consists of the following:

	<b>2022</b>	<b>2021 (As restated)</b>
Cash on hand	1,122,281	117,402
Cash in bank- local currency	194,562,194	283,834,973
Cash in bank-foreign currency	4,176,088	3,534,032
Cash equivalents	5,609,246	-
	<b>205,469,809</b>	<b>287,486,407</b>

Cash on hand consists of undeposited collections of Cash Collecting Officers and Petty Cash Fund. Cash in bank-local currency consists of current accounts while cash in bank - foreign currency is the savings account for dollar account maintained at the LBP.

## 7. FINANCIAL ASSETS

This account consists of the following:

	<b>2022</b>			<b>2021 (As Restated)</b>		
	<b>Current</b>	<b>Non-current</b>	<b>Total</b>	<b>Current</b>	<b>Non-current</b>	<b>Total</b>
Financial assets -						
held to maturity	607,233,904	-	607,233,904	471,816,857	-	471,816,857

<b>Net value- interest receivable</b>	<b>5,357,787</b>	<b>2,424,286</b>
	<b>13,829,726</b>	<b>3,906,416</b>

### a. Accounts receivable

Accounts receivable account consists of unpaid ticket sales, theater rentals, sponsorship fees, theater subscriptions and other receivables arising from the operations of the Center.

### b. Notes receivable

The Notes Receivable account represents the outstanding and overdue principal of promissory notes executed by various clients from 1977 to 1978 in favor of the CCP amounting to P8.972 million as well as the interest and surcharges that accrued to the said instruments up to 1999 amounting to P50.175 million.

These accounts were referred to the Office of the Government Corporate Counsel for collection purposes through judicial or extrajudicial processes. Appropriate charges were filed in proper courts, and in some cases, the CCP was able to secure favorable decisions from the courts, but fell short of satisfying the claims of the Center due to insolvency of a respondent, or some of the respondents have already absconded while the cases were still on appeal with the Supreme Court. On the other hand, other cases filed did not prosper since summons or warrants of arrest could not be served, as the whereabouts of the respondents were unknown.

Since previous efforts failed to satisfy the CCP's claim from these debtors, said receivables are now considered as doubtful accounts, thus a 100 percent allowance for doubtful accounts was recognized.

In 2022, full amount of the receivables was written off in the books of CCP. This is based on the Corporate Government Audit Sector (CGAS) OAC Decision No. 2022-007 and CGAS Cluster 6 Decision No. 2022-019 issued by the Commission on Audit on August 1, 2022 and August 11, 2022, respectively.

### c. Interest Receivable

This account represents the amount of interest earnings due from financial assets as of year-end.

## 8.2 Lease receivable

	<b>2022</b>	<b>2021</b> <b>(As Restated)</b>
Operating lease receivable	29,794,088	24,895,627
<i>Allowance for impairment- operating lease receivable</i>	<i>(18,109,361)</i>	<i>(16,647,955)</i>
<b>Net value- operating lease receivable</b>	<b>11,684,727</b>	<b>8,247,672</b>

This account represents the unpaid rentals, maintenance and utilities due from the concessionaires of the CCP.

## 8.3 Inter-agency receivables

	<b>2022</b>	<b>2021</b> <b>(As Restated)</b>
Due from national government agencies	4,995,308	60,528,894
Due from government corporations	190,963	190,963
	<b>5,186,271</b>	<b>60,719,857</b>

### a. Due from national government agencies (NGAs)

This account includes receivables from Department of Tourism, Provincial Government of Palawan, Procurement Service, and Philippine High School for the Arts.

### b. Due from government corporations

The bulk of this account represents receivables from the GSIS, Home Development Mutual Fund (Pag-IBIG) and Philippine Health Insurance Corporation (PhilHealth) representing over-remittance of premiums and loan amortizations and insurance claims for the CCP's motor vehicles. It also includes the receivable of P50,000 from Bangko Sentral ng Pilipinas representing its share in the cost of road upkeep for 1981.

## 8.4 Other receivables

	<b>2022</b>	<b>2021</b> <b>(As Restated)</b>
Receivables-disallowances/charges	3,202,536	3,202,536
Due from Non – Government Organizations /Civil Society Organizations	19,872,594	17,250,647
	<b>23,075,130</b>	<b>20,453,183</b>
Due from officers and employees	617,999	241,251
<i>Allowance for impairment- other receivables</i>	<i>(13,457)</i>	<i>(13,457)</i>
<b>Net value- due from officers and employees</b>	<b>604,542</b>	<b>227,794</b>
Other receivables	3,439,124	3,433,691
<i>Allowance for impairment- other receivables</i>	<i>(3,424,559)</i>	<i>(3,424,542)</i>
<b>Net value- other receivables</b>	<b>14,565</b>	<b>9,149</b>
	<b>23,694,237</b>	<b>20,690,126</b>

**a. Receivables-disallowances/charges**

This account represents Notices of Disallowance issued by the COA on various payments made by the CCP. In 2010 and 2021, the Center had exerted effort and sent demand letters to the concerned officers and employees. Some of the demand letters were not served because the whereabouts of the respondents were unknown.

**b. Due from non-government organizations/civil society organizations**

This account represents amounts granted to Non-Government Organizations/Civil Society Organizations for special purpose/time-bound undertakings/projects.

**c. Due from officers and employees**

This consists of cash advances granted for travel, purchase of supplies and materials and some incidental expenses in connection with CCP productions.

**d. Other receivables**

Lodged under this account are receivables/advances as follows:

	<b>2022</b>	<b>2021 (As Restated)</b>
Agencies/corporations	2,008,973	2,008,973
Advances	636,604	636,604
Employees	393,870	388,437
Individuals	367,546	367,546
Vicor Music Corporation	32,131	32,131
Total	3,439,124	3,433,691
<i>Allowance for impairment- other receivables</i>	<i>(3,424,559)</i>	<i>(3,424,542)</i>
	<b>14,565</b>	<b>9,149</b>

Other receivables-agencies/corporations represent pledges and sponsorship support of various agencies, corporations or companies for the various projects that they undertook and the consumption of the utilities of the Center.

Other receivables-advances represent advances made by the CCP on the projects/programs with funding coming from different government agencies and private entities, until such time that the approved funding is released to the Center.

Other receivables – Vicor Music Corporation (VMC) corresponds to the unpaid balance on the P5 million loan granted to VMC by the Center in February 1984 which was left unsettled after VMC's privatization in October 1993.

## 8.5 Aging analysis of receivables

	Total	Not past due	Past Due		
			<30 days	30-60 days	>60 days
Accounts receivable	13,127,348	7,135,744	614,861	-	5,376,743
Interest receivable	5,358,314	5,358,314	-	-	-
Lease receivable	29,794,088	5,233,881	500,394	1,596,171	22,463,642
Inter-agency receivables	5,186,271	530,923	23,824	1,076,432	3,555,092
Other receivables	27,132,252	2,896,074	2,962,500	2,763,600	18,510,078
	<b>80,598,273</b>	<b>21,154,936</b>	<b>4,101,579</b>	<b>5,436,203</b>	<b>49,905,555</b>

## 9. INVENTORIES

	2022	2021 (As Restated)
<b>Inventory held for sale</b>		
Carrying amount, January 1	84,775,650	85,807,533
Additions/Acquisitions during the year	-	93,395
Expensed during the year	(76,630,545)	(1,125,278)
Allowance for impairment	(4,686,668)	-
<b>Carrying amount, December 31</b>	<b>3,458,437</b>	<b>84,775,650</b>
<b>Inventory held for consumption</b>		
Carrying amount, January 1	1,141,231	1,390,969
Additions/Acquisitions during the year	1,824,416	1,572,019
Expensed during the year	(2,017,151)	(1,821,757)
<b>Carrying amount, December 31</b>	<b>948,496</b>	<b>1,141,231</b>
	<b>4,406,933</b>	<b>85,916,881</b>

Regular purchases of office supplies for stock are recorded under the Inventory account and issuances thereof are recorded based on the Report of Supplies Issuances. Inventory held for sale account is composed of all publications that are being sold by CCP which includes the Encyclopedia of Philippine Arts, Ani Series, and others.

## 10. INVESTMENT PROPERTY

This account consists of parcels of land and buildings held for income generation. This account consists of the following:

### As at December 31, 2022

	Land	Building and other structures	Total
Carrying amount, January 1, 2022	240,382,163	50,991,813	291,373,976

## 11.1 Land

The Center has a total of 625,171 square meters of land. The reclaimed area which was assigned to the CCP pursuant to Presidential Decree (PD) Nos. 15 and 774, dated October 5, 1972 and August 22, 1975, respectively, already excluded the following: (1) land area occupied by the Philippine International Convention Center - this was sold to the Bangko Sentral ng Pilipinas; (2) land area covering Philcite - this was transferred to the Philippine National Bank; and (3) land areas covering the Philippine Plaza Hotel, Gloriamaris Restaurant, and the Tahanang Pilipino - these were transferred to the GSIS in settlement of the CCP's outstanding obligations.

The land where the Manila Film Center (MFC) is situated was assigned to the CCP by the Public Estates Authority (PEA) in 1985 pursuant to Letter of Instruction No. 1411. This was considered as partial payment for the obligations of PEA, now the Philippine Reclamation Authority, to the National Government (NG) and as contribution of the NG to the CCP.

In 2015, the Department of Public Works and Highways-South Manila District Engineering Office implemented the National Road Lighting Program Package 7 (civil works) project wherein it undertook the installation of lamp posts/street lamps along the following road sections:

- Folk Arts Theater (FAT) Access road
- Philippine International Convention Center (PICC) FAT Main road
- PICC FAT Perimeter road
- Spine road
- MFC Main road
- MFC Access road

The CCP upon acceptance and recognizing in its books of accounts the transfer of the completed project in 2016 commits to secure and undertake the repair and maintenance of the road network.

In 2018, the Center, in connection with its Complex Development Plan and joint venture purposes, commissioned an independent appraisal company to determine the current value of CCP land. The said appraisers submitted a valuation of CCP land which amounted to P122,600 per square meter.

## **11.2 Buildings and other structures**

The CCP owns buildings and structures, including a water reservoir and conduits with a carrying amount of P146.672 million.

## **11.3 Machinery and equipment**

The account Machinery and Equipment includes a list of PPE that are already idle, unserviceable and fully depreciated amounting to P191.230 million as submitted in 2017 to the COA for dropping from the books of accounts. The amount of P191.230 million is already net of the reclassifications made to expense/Accumulated Surplus/(Deficit) in compliance with COA Circular No. 2015-010. The Center was not able to effect the dropping of PPE accounts because of the difficulties it encountered in complying with the requirements of Section 40(d), Chapter 10 of the Government Accounting Manual, Volume I, due to incomplete information and unavailability of supporting documents.

The bulk of this account also includes various visual art collections such as paintings and sculptures totaling P50.720 million. Paintings were valued based on the status of the artist and the importance of works in relation to the current art scene. However, some of the works were assigned a nominal value of P1 since they were only print photographs and the outputs of visual arts work-shoppers.

## 12. OTHER CURRENT AND NON-CURRENT ASSETS

### 12.1 Other current assets

	2022	2021 (As Restated)
Prepayments	97,986,564	87,139,577
Deposits	2,167,709	2,252,158
Advances	1,752,266	1,084,974
Other assets	227,510	227,510
<b>Total</b>	<b>102,134,049</b>	<b>90,704,219</b>

Major portion of this account represents unexpired insurance premiums on policies covering the CCP's property, the unexpired portion of the prepaid taxes withheld on interest on money market placements with government banks, and advances made for goods and services. Also included under this account are guaranty deposits, taxes withheld by suppliers and prior year's input taxes accrued by the Center. Beginning second quarter of 2019, upon consultation and clarification with the Bureau of Internal Revenue (BIR), all expenses funded by a subsidy were no longer subjected to input tax and is recognized as expense of the Center. This is in compliance with the provision of BIR Revenue Circular No. 16-2005, Section 4.110-4.

### 12.2 Intangible asset

This account consists solely of a web based integrated library system amounting P480,000.

### 12.3 Deferred tax assets

This account represents the excess amount of creditable tax after deducting the actual income tax expense for taxable year 2019 filed in April 2020.

### 12.4 Other non-current assets

This account is used to recognize assets not falling under any of the specific asset accounts used in the books of accounts of CCP.

## 13. FINANCIAL LIABILITIES

This account consists of the following:

	2022	2021 (As Restated)
Payables	218,229,529	135,468,653
Tax refunds payable	620,108	504,421
Other financial liabilities	531,555	-
	<b>219,381,192</b>	<b>135,973,074</b>

### 13.1 Payables

This account represents accrued expenses classified as follows:

	<b>2022 (As Restated)</b>	<b>2021</b>
Accounts payable	196,702,782	121,719,119
Due to officers and employees	21,526,747	13,749,534
	<b>218,229,529</b>	<b>135,468,653</b>

#### a. Accounts payable

The Accounts Payable account is composed of the following:

- Accrued liabilities committed and budgeted expenses for goods and services that were already provided to the Center but were not yet paid because invoices and other supporting documents for payments were not yet presented.
- Unliquidated obligations/vouchers represent unpaid amounts to suppliers and service providers for various goods already delivered and services rendered as of December 31, 2022.

#### b. Due to officers and employees

The Due to Officers and Employees account is used to recognize incurrence of liability to officers and employees for salaries, benefits and other emoluments including authorized expenses paid in advance by the officers and employees.

### 13.2 Tax refunds payable

Tax Refunds Payable account is used to recognize an amount refundable to taxpayers for excess amount paid/withheld. As of December 31, 2022, the balance represents unclaimed tax refunds of resigned/retired employees pending the completion of their clearances/documents required for terminal pay.

## 14. INTER-AGENCY PAYABLES

This account consists of the following:

	<b>2022</b>	<b>2021 (As Restated)</b>
Due to BIR	6,377,923	11,725,092
Due to GSIS	3,183,668	55,878
Due to Pag-IBIG	308,347	361,157
Due to PhilHealth	251,682	311,358
Income tax payable	1,126,714	35,386,619
<b>Total</b>	<b>11,248,334</b>	<b>47,840,104</b>

#### **14.1 Due to BIR**

Included in this account are taxes such as income tax, expanded tax, final tax, and value added tax withheld by the CCP for remittance to the BIR. The Center regularly remits its taxes withheld in compliance with BIR regulations.

#### **14.2 Due to GSIS, Pag-IBIG, PhilHealth**

These accounts consist of unremitted deductions from the salaries of officers and employees for life and retirement insurance premiums, optional insurance, salary, policy and real estate loans, medical and estate insurance and premiums.

### **15. TRUST LIABILITIES**

This account consists of the following:

	<b>2022</b>	<b>2021</b> <b>(As Restated)</b>
Trust liabilities	78,405,195	76,140,636
Customer's deposits payable	58,059,630	54,783,377
Guaranty/security deposits payable	25,767,843	25,278,968
	<b>162,232,668</b>	<b>156,202,981</b>

#### **15.1 Trust liabilities**

The Trust Liabilities account represents collections from different government and private entities for various projects of the CCP which aim to awaken the consciousness of the Filipino people to our cultural heritage.

It also includes funds entrusted to the Center as custodian by different entities to finance various cultural projects. Likewise, included was the fund received from the Bureau of the Treasury in 2009 for the settlement of liability of the Republic of the Philippines to Republic Real Estate Corporation (RREC) amounting to P41.790 million. In 2009, the Court of Appeals (CA) issued a decision allowing the National Government and CCP to consign the said funds with the courts. A Motion for Execution of the said CA Decision was already filed by CCP with trial court, but was denied. In June 2016, the Petition for Review filed by RREC was denied upholding the CA's Decision in 2009 and Resolution in 2013.

#### **15.2 Customer's deposits payable**

This account represents liability arising from cash received for theater violations deposits, deposits of producers for production expenses, deposits from concessionaires, and other various deposits (i.e., rental and utility deposits) which are refundable to the depositors.

It also includes collection of ticket sales of lessee-produced shows collected by the CCP which were not yet remitted to the producers.

### 15.3 Guaranty/security deposits payable

The account represents liability arising from the receipt of cash bond to guarantee the performance of the contract/court order.

## 16. DEFERRED CREDITS/UNEARNED INCOME

This account consists of the following:

	<b>2022</b>	<b>2021</b> <b>(As Restated)</b>
Other deferred credits	59,970,763	5,079,803
Unearned revenue/income	4,303,854	4,445,037
	<b>64,274,617</b>	<b>9,524,840</b>

The account includes income collected but not yet recognized as revenue by the CCP at the end of the accounting period, as well as the Center's output tax and deferred output tax account. Deferred Output Tax corresponds to the 12 percent tax on sales billed as part of the receivables. Upon collection of receivables, this account is debited and the Output tax account is then set up.

The increase in the Other deferred credits account is attributable to the recognition of the donated Black Box Theatre amounting to P53,900,000. The recognition was lodged under other deferred credits account due to unavailability of the acceptance report and final turnover as at reporting date. This will be reversed to Income from donations in kind upon acceptance and turnover.

## 17. OTHER PAYABLES

This account includes stale checks and other liabilities not falling under any specific liability account.

	<b>2022</b>	<b>2021</b> <b>(As Restated)</b>
Dividends payable	15,117,855	15,117,855
Other payables	-	1,711,654
Other payables – miscellaneous	-	554,700
	<b>15,117,855</b>	<b>17,384,209</b>

Dividends payable amounting to P15.118 million was recognized pursuant to Section 3 of Republic Act (RA) No. 7656 or the Dividend Law which states that all government-owned or controlled corporations shall declare and remit at least fifty percent (50%) of their annual net earnings as cash, stock, or property dividends to the National Government. Total net earnings of the Center in the year 2019 amounted to P30.236 million as per income tax return.

## 18. GOVERNMENT EQUITY

Government equity amounting to P1.585 billion pertains to the equity contribution of the National Government for CCP.

This account consists of the vast parcels of reclaimed land where the CCP Complex is situated, the initial capitalization of the CCP, property donated to the Center such as the MFC building and its appurtenances, audio film recording system, motorcycles, musical instruments, and other equipment. Also included are the construction cost of the Folk Arts Theater and the cost of the furniture, fixtures and equipment contained and/or installed therein.

## 19. ACCUMULATED SURPLUS/(DEFICIT)

	<b>Amount</b>
<b>Accumulated surplus, January 1, 2021</b>	442,233,147
Adjustments due to prior years' errors	69,950,291
<b>Accumulated surplus, January 1, 2021, As Restated</b>	512,183,438
Add/(deduct)	
Surplus/(Deficit) for the period, as restated	(8,592,831)
Dividends	(3,277,380)
<b>Accumulated surplus, December 31, 2021, As Restated</b>	500,313,227
Add/(deduct)	
Surplus/(Deficit) for 2022	(17,840,673)
<b>Accumulated surplus, December 31, 2022</b>	<b>482,472,554</b>

This account represents the accumulated net earnings/losses of the Center, including that of the Philippine Plaza Hotel when it was still a division of the Center until December 31, 1988.

## 20. SERVICE AND BUSINESS INCOME

This account consists of the following:

	<b>2022</b>	<b>2021 (As Restated)</b>
<b>Service income</b>		
Other service income	1,350,133	167,947
<b>Total service income</b>	<b>1,350,133</b>	<b>167,947</b>
<b>Business income</b>		
Rent/lease income	92,260,758	71,996,728
Income from printing and publication	71,673,612	6,756,872
Landing and parking fees	21,326,385	4,899,824
Theater operating revenue	14,448,598	580,559
Interest income	11,780,472	5,774,941
Seaport system fees	2,737,273	1,119,711
Seminar/training fees	155,357	280,968

	<b>2022</b>	<b>2021 (As Restated)</b>
Admission fees	26,700	-
Dividend income	6,984	-
<b>Total business income</b>	<b>214,416,139</b>	<b>91,409,603</b>
	<b>215,766,272</b>	<b>91,577,550</b>

In 2022 and 2021, due to the pandemic brought about by Coronavirus Disease 2019 (COVID-19), the CCP has granted rental reprieve and discounts to its lessees reducing its rental/lease income by P51.593 and P67.431 million, respectively.

## 21. SHARES, GRANTS AND DONATIONS

	<b>2022</b>	<b>2021 (As Restated)</b>
Income from grants and donation in cash	18,873	50,000
Income from grants and donation in kind	65,900	140,000
	<b>84,773</b>	<b>190,000</b>

## 22. PERSONNEL SERVICES

This line item consists of:

	<b>2022</b>	<b>2021 (As Restated)</b>
Salaries and wages	122,631,666	127,249,480
Other compensation	36,085,560	40,490,599
Personnel benefit contributions	17,017,518	17,339,647
Other personnel benefits	24,161,532	14,389,437
	<b>199,896,276</b>	<b>199,469,163</b>

### 22.1 Salaries and wages

	<b>2022</b>	<b>2021 (As Restated)</b>
Salaries and wages- regular	122,291,408	126,585,400
Salaries and wages- casual/contractual	340,258	664,080
	<b>122,631,666</b>	<b>127,249,480</b>

### 22.2 Other compensation

	<b>2022</b>	<b>2021 (As Restated)</b>
Year-end bonus	10,327,026	10,861,546
Mid-year bonus	9,835,049	27,887
Personnel economic relief allowance (PERA)	5,690,777	5,956,372

	<b>2022</b>	<b>2021 (As Restated)</b>
Representation allowance (RA)	2,581,625	2,557,000
Transportation allowance (TA)	2,474,500	2,335,000
Clothing/uniform allowance	1,486,525	1,494,000
Cash gift	1,205,750	1,259,000
Productivity incentive allowance	1,200,000	1,225,000
Overtime and night pay	713,430	916,105
Other bonuses and allowances	549,428	13,033,639
Subsistence allowance	18,150	17,450
Laundry allowance	3,300	3,600
Hazard pay	-	659,000
Longevity pay	-	145,000
	<b>36,085,560</b>	<b>40,490,599</b>

### **22.3 Personnel benefit contributions**

	<b>2022</b>	<b>2021 (As Restated)</b>
Retirement and life insurance premiums	14,389,473	15,038,804
PhilHealth contributions	2,060,045	1,707,443
Pag-IBIG contributions	284,000	296,700
Employees compensation insurance premiums	284,000	296,700
	<b>17,017,518</b>	<b>17,339,647</b>

### **22.4 Other personnel benefits**

	<b>2022</b>	<b>2021 (As Restated)</b>
Terminal leave benefits	14,295,928	6,911,548
Other personnel benefits	9,865,604	7,477,889
	<b>24,161,532</b>	<b>14,389,437</b>

### **22.5 Employees future benefits**

The permanent employees of the CCP contribute to the GSIS in accordance with RA No. 8291. The GSIS administers the plan, including payment of pension benefits to employees to whom the act applies. Social insurance (life and retirement) benefits are mandatory defined contribution plans fixed at nine (9) percent of the basic salaries of regular government employees.

## 23. MAINTENANCE AND OTHER OPERATING EXPENSES

This line item consists of:

	2022	2021 (As Restated)
General services	83,335,091	89,003,233
Utility expenses	45,208,463	33,912,491
Professional services	17,037,803	16,259,204
Supplies and materials expenses	8,353,605	7,017,374
Repairs and maintenance	7,295,528	7,836,807
Taxes, insurance premiums and other fees	7,219,274	5,584,801
Communication expenses	3,804,951	3,058,531
Training and scholarship expenses	1,661,652	306,409
Travelling expenses	282,843	201,283
Other maintenance and operating expenses	191,231,864	96,121,717
	<b>365,431,074</b>	<b>259,301,850</b>

### 23.1 General services

	2022	2021 (As Restated)
Other general services	32,540,509	33,607,853
Security services	30,051,470	31,931,733
Janitorial services	19,454,787	21,484,004
Environment/Sanitary services	1,288,325	1,979,643
	<b>83,335,091</b>	<b>89,003,233</b>

Other general services comprise engineering services, preventive maintenance, and services of theater crews.

### 23.2 Utility expenses

	2022	2021 (As Restated)
Electricity expenses	39,184,374	25,750,556
Water expenses	6,024,089	8,161,935
	<b>45,208,463</b>	<b>33,912,491</b>

### 23.3 Professional services

	2022	2021 (As Restated)
Auditing services	3,811,368	3,793,913
Consultancy services	-	443,696
Other professional services	13,226,435	12,021,595
	<b>17,037,803</b>	<b>16,259,204</b>

#### 23.4 Supplies and materials expenses

	2022	2021 (As Restated)
Office supplies expenses	2,020,419	2,089,598
Semi-expendable machinery and equipment expenses	1,948,455	885,219
Fuel, oil and lubricants expenses	1,781,718	1,380,038
Other supplies and materials expenses	1,594,109	2,403,340
Semi-expendable furniture, fixtures and books expenses	977,599	195,369
Accountable forms expenses	10,000	1,875
Drugs and medicines expenses	19,145	26,393
Medical, dental and laboratory supplies expenses	2,160	35,542
	<b>8,353,605</b>	<b>7,017,374</b>

#### 23.5 Repairs and maintenance

	2022	2021 (As Restated)
Repairs and maintenance-buildings and other structures	2,955,421	2,834,661
Repairs and maintenance-machinery and equipment	2,563,849	1,648,509
Repairs and maintenance-land improvements	989,630	2,407,626
Repairs and maintenance-transportation equipment	521,580	417,200
Repairs and maintenance-other PPE	235,462	285,582
Repairs and maintenance-furniture and fixtures	29,586	243,229
	<b>7,295,528</b>	<b>7,836,807</b>

#### 23.6 Taxes, insurance premiums and other fees

	2022	2021 (As Restated)
Insurance expenses	4,565,366	4,146,155
Taxes, duties and licenses	2,409,161	1,331,268
Fidelity bond premiums	244,747	107,378
	<b>7,219,274</b>	<b>5,584,801</b>

#### 23.7 Communication expenses

	2022	2021 (As Restated)
Telephone expenses	2,301,651	1,869,737
Internet subscription expenses	1,392,078	1,153,279
Postage and courier services	111,222	35,515
	<b>3,804,951</b>	<b>3,058,531</b>

#### 23.8 Training and scholarship expenses

This account represents the training from the Philippine Institute of Certified Public Accountants, Civil Service Commission, Ateneo De Manila University, Philippine Red

Cross and various Workshops amounting to P1.662 million and P306,409 for the years ended December 31, 2022 and 2021, respectively.

### 23.9 Travelling expenses

	<b>2022</b>	<b>2021 (As Restated)</b>
Travelling expenses-local	201,116	201,283
Travelling expenses-foreign	81,727	-
	<b>282,843</b>	<b>201,283</b>

### 23.10 Other maintenance and operating expenses

	<b>2022</b>	<b>2021 (As Restated)</b>
Production expense	183,110,416	90,520,230
Subscription expenses	1,096,246	547,606
Rent/lease expenses	917,518	467,231
Representation expenses	737,707	516,756
Transportation and delivery expenses	677,500	1,610,740
Printing and publication expenses	659,426	10,115
Advertising, promotional and marketing expenses	73,042	328,933
Membership dues and contributions to organizations	55,236	22,144
Other maintenance and operating expenses	3,904,773	2,097,962
	<b>191,231,864</b>	<b>96,121,717</b>

Production expenses comprise artists fees, support programs for professional dancers, and innovation/subsistence grants provided to various projects to promote and conserve culture and arts. The projects include but are not limited to Cinemalaya, Virgin Labfest, Sinag, Kalinga ng Sining, and Kutitap.

### 24. DIRECT COST

This account represents the cost of items under the merchandise inventory that were sold and/or given as complimentary copies or gifts by CCP amounting to P76.631 million and P1.125 million for the years ended December 31, 2022 and 2021, respectively.

### 25. FINANCIAL EXPENSES

This account consists of the following:

	<b>2022</b>	<b>2021 (As Restated)</b>
Management supervision/trusteeship fees	386,388	-
Bank charges	44,296	-
Other financial charges	402,500	383,984
	<b>833,184</b>	<b>383,984</b>

## 26. NON-CASH EXPENSES

This account consists of the following:

	<b>2022</b>	<b>2021 (As Restated)</b>
Depreciation	37,580,068	37,030,345
Impairment loss	6,493,517	1,521,894
	<b>44,073,585</b>	<b>38,552,239</b>

Decrease in current assets	23,998,471	111,384,452
Increase (decrease) in current liabilities	105,329,458	(8,334,407)
Other adjustments	14,732,727	-
<b>Net cash flow from operating activities</b>	<b>166,623,849</b>	<b>125,564,993</b>

### 32. RELATED PARTY TRANSACTIONS

#### 32.1 Related party transactions

The Center does not have dealings with related parties involving transfer of resources and obligations.

#### 32.2 Key management personnel

The key management personnel of the CCP are the Principal Officers, consisting of the President, Vice Presidents for Administration and Finance and the Artistic Sectors. The Governing Body consists of members appointed by the President of the Philippines.

### 33. BUDGET INFORMATION IN FINANCIAL STATEMENTS

The *original budget* reflected in the Statement of Comparison of Budget and Actual Amounts (SCBAA) for the year ended December 31, 2022 is the proposed Corporate Operating Budget (COB) for the year 2022 and was submitted to the Department of Budget and Management (DBM) for review/evaluation while the *final budget* is the amount as approved by DBM on October 10, 2022. The proposed/original COB is prepared considering: (1) the Center's various programs, projects and activities in pursuance of its mandate; (2) the projected revenues and other sources of income to finance and support these programs; (3) actual expenses on previous years; and (4) effects of inflation. Aside from the COB, the CCP had received subsidies appropriated for the implementation of programs.

Changes between the original and final budget are due to the following:

- a. The Center's revenue target for CY 2022 amounted to P245.396 million as submitted and approved by the DBM. Actual revenue recognized for the year amounted to P221.730 million.
- b. The approved budget amount of P1.933 billion was sourced from the Center's corporate fund, current year's subsidy, Tobacco Inspection Fee and prior year's continuing appropriation.
- c. Material differences between the actual expenses as against the budget pertained to the following:
  - Personnel services – pertained to unfilled positions as of the reported year.
  - Maintenance and Other Operating Expenses – favorable results of P128.800 million was the effect of the declaration of the enhanced community quarantine in the entire Luzon wherein offices were closed and most of the production were postponed or cancelled
  - Capital Outlay – to be collected in the succeeding years since the release of the funds from DBM for Capital Outlay items are dependent upon the submission of billing statements, contracts and purchase orders.

### **34. SUPPLEMENTARY TAX INFORMATION UNDER REVENUE REGULATION NO. 15-2010**

The Center has paid and/or accrued the following types of taxes for CY 2022.

#### **34.1 Value Added Tax (VAT)**

VAT exempt sales	113,853,992	596,654,379
Total gross receipts	229,658,987	685,925,687
<i>Less: VAT exempt sales</i>	113,853,992	596,654,379
Total vatable gross receipts	115,804,995	89,271,308
Multiply by: Tax rate	12%	12%
<b>Total output tax for the year</b>	<b>13,896,599</b>	<b>10,712,557</b>

<b>Particulars</b>	<b>2022</b>	<b>2021</b>
Output VAT declared for the year	13,896,599	10,712,557
Less: Balance of input VAT at the end of the year	-	-
<b>Total</b>	<b>13,896,599</b>	<b>10,712,557</b>
VAT payable for the year		
<i>Less: VAT Payments for the current year</i>		
1st Quarter	2,675,386	2,603,236
2nd Quarter	2,824,548	2,400,161
3rd Quarter	3,267,980	2,560,342
October and November	3,526,861	2,039,387
VAT withheld on sales to government	29,657	6,914
<b>VAT Payable</b>	<b>1,572,167</b>	<b>1,102,517</b>

### **34.2 Taxes and licenses**

This includes all other taxes, local and national, including licenses and permit fees lodged under the 'Taxes, insurance premiums and other fees' account under the 'Maintenance and Other Operating Expenses' section in the Statement of Financial Performance.

	<b>Amount Paid</b>
National	2,353,944
Local	55,217
BIR annual registration fee	500
	<b>2,409,661</b>

### **34.3 Withholding taxes**

The amount of withholding taxes paid/accrued for the year amounted to:

	<b>Amount</b>
Tax on compensation and benefits	14,041,810
Creditable withholding taxes	10,570,066
Withholding VAT	6,825,842
Withholding percentage taxes	982,615
Final withholding taxes	406,845
Documentary stamp tax	350,332
<b>Total</b>	<b>33,177,510</b>

Adjustments in the balances of taxes payable reflected in the trial balance as of December 31, 2022 are to be effected in 2022 to reflect the correct tax due and remittance in 2023.

### **34.4 Tax Cases**

In May 2022, CCP received a Preliminary Assessment Notice (PAN) from the Revenue District Office No. 51 for the tax deficiencies for taxable year January 1 to December 31, 2019. CCP has complied with the PAN and has settled P40.000 million inclusive of compromise and penalties with the BIR on June 14, 2022, the settlement includes the following; Income Tax of P34.615 million, Expanded Withholding Tax of P1.315 million, and Final Withholding of VAT P4.070 million.

### **35. COMPLIANCE WITH GSIS LAW, REPUBLIC ACT (RA) NO. 8291**

The CCP complied with Section 14.1 of RA No. 8291 which provides that each government agency shall remit directly to the GSIS the employees' and government agency's contributions within the first 10 days of the calendar month following the month to which the contributions apply. For CY 2022, the CCP collected and remitted the employees' premium contributions and employer's shares in the amount of P25.058 million and P22.934 million, respectively.

### **36. COMPLIANCE WITH GOVERNMENT SERVICE INSURANCE SYSTEM (GSIS) and PAG-IBIG LAWS**

The CCP is compliant with the GSIS guidelines on the collections and remittances of GSIS contributions pursuant to RA No. 8291, otherwise known as the GSIS Act of 1997. For CY 2022, the CCP remitted the monthly contributions for life and retirement in the total amount of P22.934 million.

The Center is also compliant with Rule VII, Section 3 of the Implementing Rules and Regulations of RA No. 9679 in the collection and remittance of contributions to the Pag-IBIG Fund.

### **37. INSURANCE OF GOVERNMENT PROPERTIES WITH THE GSIS**

Center complied with the law and regulations on the insurance of all insurable assets as required under RA No. 656, otherwise known as the "Property Insurance Law", as amended by PD No. 245 dated July 13, 1973. In CY 2022, the Center insured its properties totaling P557.293 million with the GSIS, as presented below.

<b>Property Insured</b>	<b>Amount Insured</b>	<b>Premium Paid</b>
Building	487,854,810	3,995,158
Visual arts	63,220,200	379,321
Vehicles	6,217,889	89,770
	<b>557,292,899</b>	<b>4,464,249</b>

### **38. COMPLIANCE WITH TAX LAWS**

The CCP has been consistently withholding taxes on salaries and wages and other benefits due from its officers and employees as well as on goods and services which are remitted to the BIR. For CY 2022, taxes withheld and remitted to the BIR amounted to P33.178 million and P27.147 million, respectively. The balance of P6.159 million as of December 31, 2022 was remitted in January 2023.
